## MICS Cannulae, Bi-Flow Femoral Arterial, 19 Fr, 203-019

Bi-Flow is the only bidirectional arterial cannula on the market designed to reduce the risk of limb ischemia in an easy, safe and reproducible way. Unlike traditional cannulae, Bi-Flow's patented design incorporates a unique elbow and downstream perfusion

channel. The cannula is easy to insert and remove and provides simultaneous systemic and distal perfusion to the lower limb.
